

Running Slideshow in PowerPoint

Most PowerPoint presentations are created to be run as a slideshow. Given all the advanced features available in PowerPoint 2010, it is no surprise that there are many features related to running the slideshow that have been included in this program too. Most of these features are really to help you create a good slideshow without having to go through the entire presentation over and over again after every minor change. Features related to running the slideshow are grouped under the **Slideshow** ribbon.
